Produktinformationen "Motion Encoder Cart and Receiver"

The Motion Encoder Cart and Receiver is for users of the Vernier Dynamics Cart and Track System (DTS) who want to add Motion Encoder capability. It includes a fully assembled Motion Encoder Cart (DTS-CART-MEC), as well as the Motion Encoder Receiver (MEC-BTD) and a Motion Encoder Long Track Strip (METS-LONG).

The Motion Encoder Long Track Strip can be trimmed to fit the 1.2 m dynamics track. This product is only compatible with [Vernier Dynamics Cart and Track System](#).

Position resolution:

1 mm

Maximum useful data rate:

30 Hz

Included:

Motion Encoder Cart

Motion Encoder Receiver

Motion Encoder Long Track Strip

Allen wrench

[User manual](#)

The Motion Encoder Transmitter requires two AAA batteries (not included).

Bildungsstufe: Sekundarstufe II, Tertiäre Bildung, Zyklus 3

Hersteller: Vernier

Fachbereich: Physik

Fach: Physik, Vernier
