### Produktinformationen "KidWind Basic Turbine Building Parts"

The Basic Turbine Building Parts kit includes the KidWind Hub, a wind turbine generator, and 25 dowels, all in one package.

#### Description

These are the bare-bones components to build your own experimental wind turbine. This package is great for students who don't want a ready-made wind turbine tower and base, and is great for educators who want an affordable way for each of their students (or student groups) to do hands-on experiments with wind power. The Classroom Pack also includes a free blade pitch protractor!

#### What's Included

Basic Turbine Building Parts

- Wind Turbine Hub (1)
- Wind Turbine Generator with Wires<sup>1</sup> (1)
- Dowels<sup>2</sup> (25)

Basic Turbine Building Parts (10 Pack)

- Wind Turbine Hub (10)
- Wind Turbine Generator with Wires<sup>1</sup> (10)
- Dowels<sup>2</sup> (250)
- Blade Pitch Protractor (1)

Warranty Exceptions and Exclusions

1. This part has a 1 year limited warranty.
2. This part is a consumable and excluded from warranty.

**Fach:** Erneuerbare Energie, Physik, Technisches Gestalten, Vernier
